FACTS ON IRAQ

Hammurabi king of Babylon

Hammurabi was the ruler who chiefly established the greatness of Babylon, the world's first metropolis. He was the first king to implement written laws (codes) ever in history

Below are two important laws from the codes of Hammurabi:

If a customer entrust money to an agent (broker) for some investment, and the broker suffer a loss in the place to which he goes, he shall make good capital to the customer

If, while on the journey , an enemy takes away from him anything that he had , the broker shall swear by God and be free of obligation

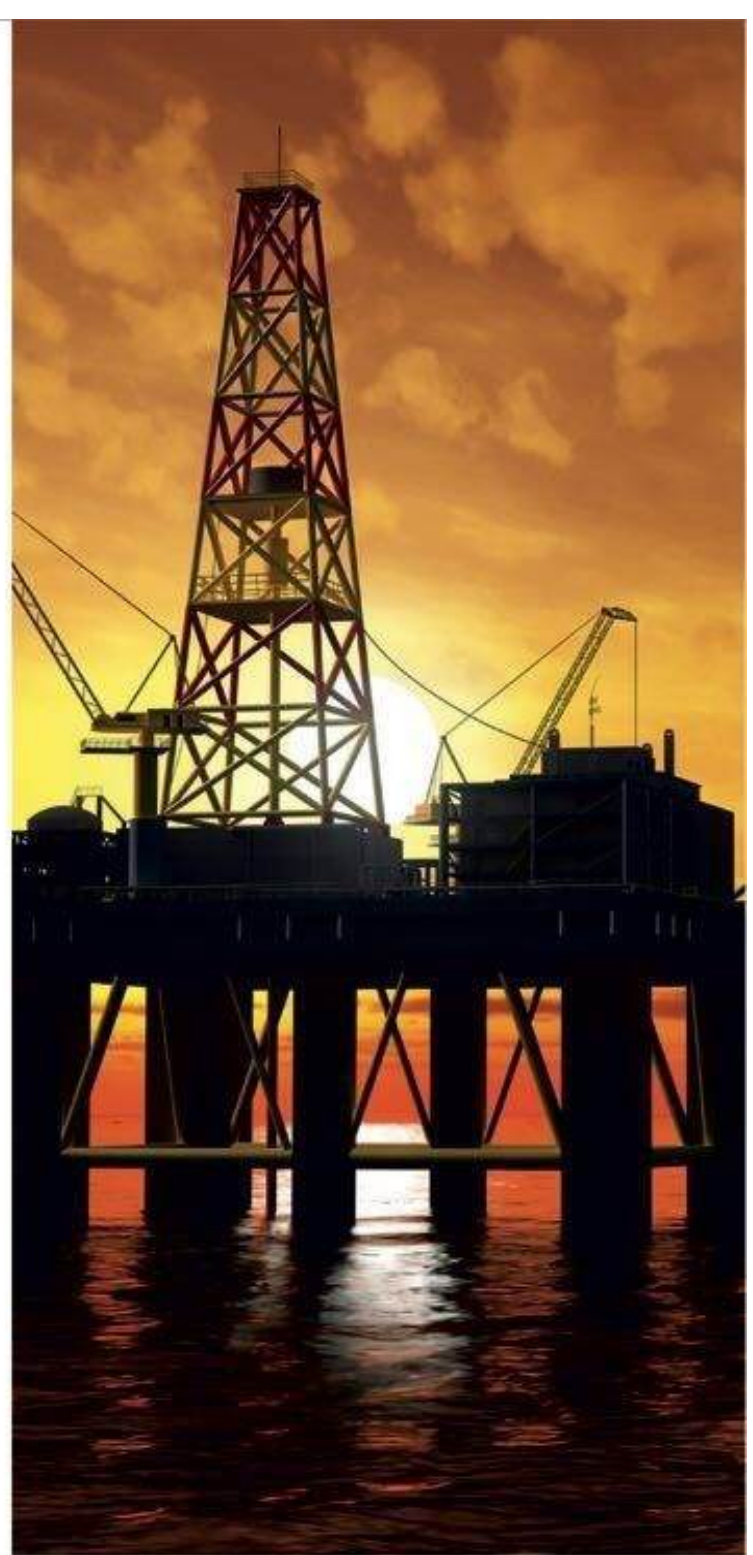

CORPORATE HISTORY

Al Nukhba OFS, an ISO 9001/14001 and OHSAS 18001 certified company was established in Basrah, Iraq along with a representative office in Dubai, UAE and we are proudly dealing with the local customer needs since its establishment in 2010 in the field of civil and related construction works. In the early year of 2003, Al-Nukhba founder and sons were in the business activities working with others companies and limited its services to Basra region only and confined to construction of major residential and commercial building projects. Later on its construction projects were expanded to different provinces.

Al Nukhba OFS started its business as an investor in Basra area in the Specialized Fields and expanded business areas in Water and Wastewater Treatment Plants and Pre-Drilling Oil Field Services, Logistics & Custom Clearance and other Oil Field Services.

Al Nukhba OFS' knowledge in Iraq is imperatively effective, and has the understanding of the business scope of both public and private organizations whose combined effort are required to resolve and assist with any challenges for the mutual prosperity. With the professional, experienced and devoted workforce, possession of construction equipment and a progressive management, Al Nukhba OFS is moving towards a better future.

Al Nukhba OFS FZCO is the representative office in Dubai, UAE of Al Nukhba Oil Field Services. It was established also in 2005 doing the trading business like Oilfield & Natural Gas Equipment & Spare Parts Trading, Construction Equipment & Machinery and Spare Parts Trading, Heavy Equipment & Machinery Spare Parts Trading, Well Drilling Equipment Trading, Used Auto Spare Parts & Requisites Trading, Power Generation, Transmission & Distribution Equipment Trading, Automobile Trading, Auto Spare Parts & Components Trading, Tires & Rims Trading, Pumps, Engines, Valves & Spare Parts Trading.

Al Nukhba OFS FZCO is incorporation with the major companies for the future energy projects. It is an active and existing company which has contract with Ministry of Electricity (Iraq and Ministry of Industry & Minerals) Joint Venture (JV) with Al Aaz Company.

We are an agent for Parker Trade Link International (A Supply Chain Management Company).

Distributor and Agent for Chesterton.

**Al Nukhba OFS is an ISNetworld Compliant and
Iraq Britain Business Council Member**

SECTORS & SERVICES

Electric Power Plant (Supply and Maintenance)

We operate and maintain the facility in responsible manner, we are committed to environmental sustainability, safe and secured operation which comply with the regulatory requirements as we well as company policies.

Water Desalination

We engage with energy companies with a comprehensive engineering company in investment, financing, survey, design, equipment supply, construction, commissioning, and operation of electric power projects and infrastructures.

Supply and Construction of Oil Tanks

Al Nukhba's expertise is employed to deliver the best services and Oil Tank supply and construction is at its best. We understand the needs of our clients in terms of quality service and the standard we set is unsurpassed in the Tank Services.

Power Generator Supplier & Distributor Supplier and Distributor of Bentonite, Calcium Carbonate, Guar Gum Powder, Hematite Powder, Sodium Chloride (Salt), Attapulgite (Salt Water Clay) & other minerals for all varieties

Camp / Site Maintenance

Our Camp maintenance team provides 23 hrs services, to assure efficient and professional results. We understand camp life concerns and we addressed them with complete attention and care. We operate with the latest equipment and materials.

Logistics

Al Nukhba-OFS prides itself with offering all type of logistics solution services at a reduced operation cost and enhanced customer service to the client.

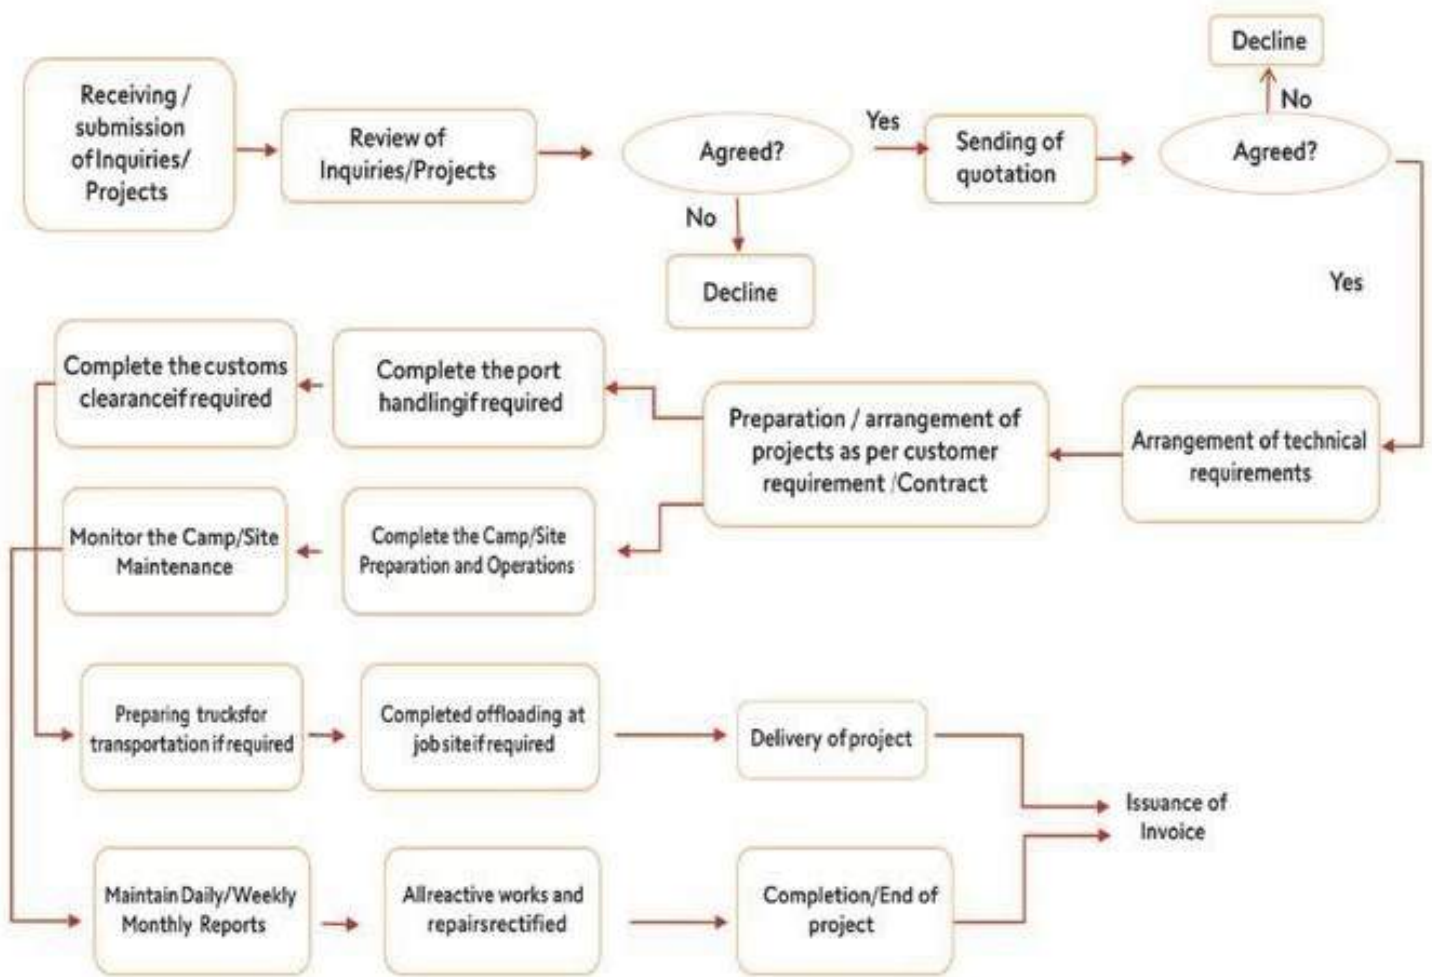

We gained such experience by handling IOC of world business in Iraq (ocean freight, Custom clearance Umm Qasr, Inland transport, SOC process, Umm Qasr formalities and process)

Storage Warehousing

Al nukhba-OFS holds a 10 years contract with SOC on a 200X200 meter land in north Rumaila and Safwan for the purpose of oil field equipment storage. Our storage facility offer excellent safety zone, safekeeping security and well geographically located.

OUR PEOPLE

AlHujen has a virile and very dynamic workforce that we like to refer to as our strength. This is in line with our mission to recruit, retain and reward a high-performance workforce.

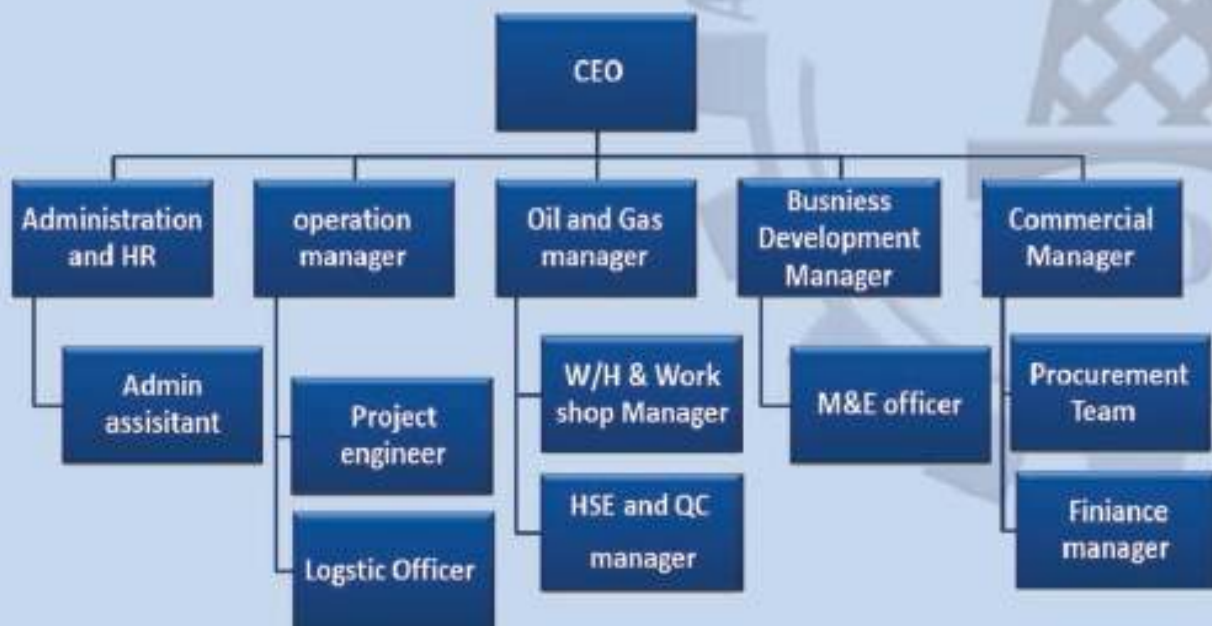

This hardworking, virile and dynamic workforce is managed and controlled by a group of highly competent man- engagement team with tonnes of experience in the petroleum sector, giving our company an edge over others in terms of productivity and service delivery to our shareholders and clients respectively.

We have a qualified system for accessing key skills and experience to ensure that our staffs and consultants have significant and relevant experience relative to the job they are assigned. The company to ensure continuous professional development for our team allocates significant resources to various unique training and development programs.

ORGANIZATIONAL STRUCTURE

CORE VALUES

- Excellence
- Professionalism
- Innovation
- Corporate Social Responsibility
- Faith in God
- Integrity
- Teamwork

OUR VISION

- To be recognized as the premier in indigenous oil and gas service provider driven by excellence and innovation.

OUR MISSION

- To create value for our partners through excellence and innovation
- To be responsible partners with respect to safety and environmental impact of all our operations and services
- To run the company on a sustainable financial basis of profitable-growth
- To recruit, retain and reward high-performance workforce

About AlHujen

AlHujen for Contracting, oil services and general transportation has been providing specialized in construction and support services in Iraq for over 20 years. AlHujen is an indigenous company, we understand post-conflict environment challenges from a local perspective where business growth has developed significantly around the Oil and Gas industry. Our unique application and our ability to provide a 'Turn-Key' solution to the Oil and Gas industry, predominately in the All regions of Iraq, has allowed AlHujen to become a market leaders in this sector. With a client portfolio to include some of the largest Oil and Gas sector company's, currently operational within Iraq.

AlHujen has evolved into a leading supplier of; physical security, life support services, equipment rental, operational oversight, construction, installation, maintenance, transportation, procurement and supply of authentic materials, and many other logistical support elements in support of the Oil and Gas sector in Iraq. AlHujen has the ability to provide not only construction, support services and e equipment rental, but also on site physical security solutions through our partner Contact Consulting. This has allowed AlHujen to support various industry leaders within the Oil and Gas sector by providing a turn key solution. Contact Consulting handles an array of services in terms of security protect management, manning, ongoing threat assessment, installation of T-walls, guarding towers, bunkers, specialist security lighting and the instillation of tech- cynical security solutions.

Our Services

Construction and Maintenance

AlHujen has evolved into a market leader within the Oil and Gas support services sector in southern Iraq. Our extensive experience was gained through the provision of rig and camp construction services to many of the largest Oil and Gas support company's located in Iraq. AlHujen experience has proven to be a cost effective solution to incorporate all of the necessary client requirements such as; physical security elements, with construction , accommodation units, life support equipment, and other critical equipment in a timely manner.

Procurement and General Supply

We understand the need for high quality products and materials. AlHujen offers a comprehensive procurement services such as warehousing and distribution to companies operating in southern Iraq. AlHujen can tailor make a procurement and general supply solution that is right for our client's needs. AlHujen we pride ourselves on reaching international standards in all our areas of operations. AlHujen has worked to develop and establish networks with major manufactures and suppliers to ensure the quality and authenticity of all products and materials we supply to our clients.

Logistic and Transportation

AlHujen is strategically located in central Basra where we can assist in not only providing our clients with the necessary transportation and logistical support. We can also provide a key Iraqi local liaison to serve as an integral part of logistical support for transportation services. AlHujen can offer the transportation of goods and materials from company bases or stores to the client. At AlHujen we delivery client materials in a timely and secure manner.

Environment Solution

AlHujen understands the need for high quality life support in Iraq. Our client base, predominately directly related to the Oil and Gas sector in Iraq, vary these requirements and this has enabled AlHujen to be flexible in our approach to both long and short term life support requirements. As a well placed provider of logistical support services,

Services and Life Support

As a leading supplier of logistical services in the south of Iraq, AlHujen has an existing portfolio of equipment which is available to lease on a short and long term basis. We can offer our clients equipment rental inclusive of our experienced operators to ensure that equipment is operated by experienced and qualified personnel, as well as achieving maximum productivity for our clients to avoid additional and non essential expenditure.

Fuel Supply

AlHujen can provide high quality fuel in accordance with our clients requirements. Our fuel, tested prior to delivery to ensure we only provide the highest standard to our clients. Problematic fuel can cost dearly, especially when considering the high value nature of equipment within the Oil and Gas sector. AlHujen fuel check and approved provider service policy ensures that all our fuel is high quality.

Construction and Maintenance

Our company had been established since 1979 as contracting, industrial and trade bureau owning by Fataka Family in Erbil City Kurdistan Region - Iraq. We have performed different types of constructional, industrial projects as well as many trading and transportation. The current activities of our company are divided in the same actions and spreading along Iraq Regions.

We have performed different types of constructional, industrial projects as well as many trading and transportation. We have an animal feed factory along with poultry farms. From there, we started getting involved in construction projects with the government. We built schools, telecommunication projects, government buildings, housing projects and we took the contract of building and construction streets and roads all over the Region. Then we built a Factory to produce flour in Erbil, and recently, one of Sarmand's branches handled transportation of goods between Turkey, China and UAE. USA and UK. The latest project we, in Sarmand Company, got involved with is related to the Oil and Gas industry.

General Construction

- 1- Construction of the Feeding Irrigation Canal including concrete frame bridge and Concrete mattress, in Hawija Town — Kirkuk City, on 1987.
- 2- Construction of 150 IDP houses in Kifri Town. The houses constructed for (Iraqi Displaced Persons) on 2001.
- 3- Construction of sewerage project with concrete pipes for Chwarta Town Sulaimaniyah City. Including all pipe routes connection with the residential district's units and Manholes.

Road construction

- 1- Construction of the road between Spelk — Khalifan Dist. Length of the road: - 50.00 KM - Width of the road: - 11.5 M. Cost of the project (17.50 Million USD).
- 2- Construction of the road of Sarala Mountain for Kirkuk Oil Company in Kirkuk in Shiwan District and for 12 KM. length (Sub grade, Sub base and Asphalt).

Power Construction

- 1- Construction of 4 Electrical substations in Heet Town, Kubaisa Town, Karakoshi Town and Laylan Substation.
- 2- Construction of Electrical Substation 33 KV as partner with Al-Bani Company in Erbil — Shadi Dist. This project started on 2009 and completed by November 2010.

Renovation & Rehabilitation

Rehabilitation of Bank of Baghdad.
From: May 17 / 2014 — November 2015.

The project works include demolition of all the tiles, walls, electrical and sanitary items built before. The project of existing old building with 7 stories and our contract is for all the new rebuilding facade works with marble, new installation of electrical mechanical works as well as supplying of the new bank's furniture.

Procurement and General Supply

AlHujen understands the need for high quality products and materials. AlHujen offers a comprehensive procurement services such as warehousing and distribution to companies operating in southern Iraq. AlHujen can tailor make a procurement and general supply solution that is right for our client's needs. At AlHujen we pride ourselves on reaching international standards in all our areas of operations. AlHujen has worked to develop and establish networks with major manufactures and suppliers to ensure the quality and authenticity of all products and materials we supply.

AlHujen can offer procurement or purchasing, inward transport, receiving, warehousing or stores, stock control, material handling, packaging, outward transport, and physical distribution. AlHujen can also offer the supply services of different kinds of materials and equipment. Along with services turnings or dedicated projects procurement liaison with weekly requests. AlHujen personnel give guidance and procedures to give our clients the flexibility to change the materials on an as need basis

Electrical Procurement

We Doing cool things with electricity is the very reason we exist as a company. You can trust us to help you with any electrical application from beginning to end.

We source and apply the electrical products that make things work. Period. And, we're right down the road.

Mechanical Procurement

We are highly motivated and are greatly experienced selling and providing technical service assistance for the equipment we represent. We have years of experience in heating equipment sales, mechanical service and sales management in the mechanical equipment industry. Our ability to secure engineering specifications and product sales is a testimony of our dedication to our products and customers' requirements.

Chemical Procurement

We recognize the challenges and opportunities our partners are facing in today's highly competitive and increasingly complex oil and gas markets. Our commitment to the Oil and Gas business, as a market leader, provides key advantages to our partners in terms of our service commitment and expertise

General Supply

We provide an equipment and material procurement and supply service to the oil and gas industry throughout Africa and the rest of the world. Procurement in the Oil & Gas Industry has become an essential service in today's competitive marketplace.

Camp Supply

The hands on and holistic approach to serving all camp needs distinguishes the overall experience of AlHujen clients in Iraq. With over a decade of experience within the hospitality industry, pertinent ancillary services are offered beyond the construction of the camp facilities.

Logistic and transportation

Heavy lift equipment

We are most modern fleet of heavy lifting equipment, from 10-ton all-terrain cranes to our in-house developed PTCs, in the 5000-ton lifting class. Our range of PTCs combine vast lifting capacity with a long reach, relatively small foot-print, flexible configuration and quick mobilization. These highly versatile cranes provide significant

Fuel Supply

AlHujen can provide high quality fuel in accordance with our clients requirements. Our fuel, tested prior to delivery to ensure we only provide the highest standard to our clients. Problematic fuel can cost dearly, especially when considering the high value nature of equipment within the Oil and Gas sector. AlHujen fuel check and approved provider service policy ensures that all our fuel is high quality.

Logistic Support

Beyond container shipping and transport solutions, we offer a comprehensive range of logistics services to secure your supply chain. Acting as the logistic arm of the Group, our logistics subsidiaries handle all your logistics challenges by providing Group customers with end-to-end solutions in synergies with liner business. Whatever your challenge, we offer you with the best-in-class solution

Custom Clearance

AlHujen understands the need for high quality life support in Iraq. Our client base, predominately directly related to the Oil and Gas sector in Iraq, vary these requirements and this has enabled AlHujen to be flexible in our approach to both long and short term life support requirements. As a well placed provider of logistical support services,

Mobilization and De-Mobilization

In an extensive mobilization process, We sourced and acquired the full inventory of machinery and equipment necessary to execute the project. In addition to large hydraulic tracked excavators, wheel loaders, and backhoes, four cranes (two 225 ton) were used. A 250-foot scow barge and 160-foot apud barges were used to handle the demands for pile-driving spreaders which were served by project tugs and skiffs.

Equipment Rental

We know that you rely on our equipment to get your job done. That's why we invest heavily in keeping our rental fleet in optimum condition. We employ highly trained, certified technicians at all of our 80 locations to service and maintain all of our rental equipment to the highest standards, either in our own workshops or on the job-site. We also regularly add new equipment to our fleet, giving you access to the latest industry developments.

Fuel Supply

Al-Hujer was established specifically to deal with Fuel Supply, trade services, and transportation at various scopes, i.e. local, regional and national levels. It was officially registered at the Directorate of Corporate Registration of Kurdistan Region Government (KRG), under License No. 448 of DATE 2010. It was incorporated with an authorized stock capital of seven million US Dollar. Since 2007, the company has broadened its services include building and civil engineering projects focusing on supply, transportation, distribution and logistical services. Its scope of clients also expanded to include a wide range of international organizations working in the relief and humanitarian sector in Kurdistan Region of Iraq. Sarawand has continued to strive towards becoming a complete multi-disciplinary firm offering clients quality services especially those requires intended for vulnerable people in different volatile environments. We see clients and final beneficiaries satisfaction as the key success element. It believes in achieving success and building trust with clients and project/service beneficiaries, to achieve this end, it has increased its resources to cope with the increasing business needs regardless of their scope or geographical scales. The company has the necessary staff and resources to ensure the best service is always provided.

Zafco Trading Inc;

Company Profile

Zafco Trading Inc;

Brian E. Green

INTRODUCTION:

Zafco Trading Inc; (**ZTI**), established as corporation in Houston TX at early 2002, provide services in Land Oil & Gas drilling and Geothermal Drilling, Integrated Services for Drilling projects, oilfield equipment supply & services, refineries, pipeline, civil construction sites, rig road etc, HSE consultants & trading businesses, working for local as well as international projects with world renowned companies

ZTI provide Land, Offshore, Drilling, Third Party Management & Operation, Integrated Services and Repair & Maintenance Services for E&P & Geothermal Companies, complete backup support & spares accessibility with our certified engineers, trained technicians and qualified staff.

ZTI API & ISO certified engineering Services Company, carrying out various manufacturing, suppliers of technical spare parts, raw materials services in the Oil & Gas Drilling, Refinery and Marine Industries.

ZTI repair, refurbish maintain all varieties of drilling rigs (electrical & mechanical) equipments, offshore oil production platforms maintenance, diesel engines, generators, compressors, Allison & others type of transmissions, gear-box pumps, hydraulic units, heavy and industrial machinery.

ZTI qualified & highly experienced staff committed to constant encouragement and continued improvement to focus our attention on performing the best result oriented operation for the client's best interest. It stresses an acute sense of safety provides empowerment to its employees so that we can provide API quality of service to our Clients.

ZTI business include fabrication, modification, refurbishment and manufacturing of oilfield drilling rig equipments, design of auxiliary systems & components, rig-up & testing of complete rig. We offer in-house engineering and computerized drafting systems to clients in need of such services, as an onsite extension of the customers engineering staff.

ZTI engineers, technicians, mechanics and other related staff each with more than ten years of field service experience are fully acquainted with drilling equipment operations, available to travel at one call to supervise / work repair & testing on field locations. In addition to design, fabrication, refurbishment, we offer sand/water blasting, painting and custom welding, also diesel engine, generator testing procedure will apply at test bench on our workshop and after fully satisfaction we deliver equipment to client with test certificates.

ZTI is committed to supply high level of service to its clients. As part of **ZTI** policy on continual improvement, we focus our attention on performing the best result oriented operations for the client's best interest and give our full attention on constant communication with our clients and there staff, so that we may best serve their requirements.

ZTI deliver the project / job on time as per the client specifications. We understand that all of the project / equipment & components must work as to avoid expensive downtime cost. We thoroughly test equipment in the basic to eliminate problems in the field.

To achieve quality service our commitment of constant training with complete proficiency of perfect sense of HSE in all aspects of the job to our employees in the very best interest of the Client at highest level of accomplishment will provide un-matched quality service standard to oil & gas / drilling industry for successful accomplishment of the assignment.

The desire for having a highly motivated workforce is clear in private and public sector organization which leads to higher productivity, better customer service, fewer errors in production and other processes thus producing sizable cost saving, a positive industrial climate. A harmonious, pleasant working environment belongs with creative and high performance culture.

ZTI expands rapidly oilfield services business in Middle East region; therefore management decides to establish a division “**Zafco Oilfield Services Company (ZOSC)**” in October 2016 to perform independently beneath Zafco management. ZOSC are fully authorized in Middle East and surround region oilfield projects to pertain and accomplish by ZOSC.

SERVICES:

- ◆ Integrated Services
- ◆ Geothermal Drilling
- ◆ Manpower Services
- ◆ Workover & Well Servicing
- ◆ Oil & Gas Drilling Onshore & Offshore
- ◆ Oilfield Development & Abandons Services
- ◆ Offshore Production Platform Maintenance Services
- ◆ Offshore Platform Maintenance, Boat and infrastructure Services
- ◆ Oil Refinery Installation, Maintenance and New –Used Sell Services
- ◆ Third Party Management and Operation for Land / Offshore Drilling & Workover
- ◆ Oil & Gas, Water, Pipeline & Fabricate of Oil Storage Tanks as 650 API Specs
- ◆ Electrical / Mechanical Contractor Services
- ◆ Civil Construction & Rig Road for OIL & Gas Wells
 - > Mud Pits Water Pits Waste Pits
 - > Site Preparation Construction of Rig Road Construction of Rig Platform & Pad
 - > Oil Pills Swapping with Natural Ingredients Environmental Friendly System
- ◆ Water Desalination
 - > Reverse Osmosis System services the range from 35-gpd to 1,000,000 – gpd, {source form Seawater / Ground / Tap Water} upto 50,000 TDS [pure water] supply/installation & technical training support for Client's staff.
- ◆ API Certified Oilfield & Drilling Rig Equipment Workshop
 - > Welding: ANSI CLASS, API, ASTM A216, WCB ASME, WCB, WC6 WC9
 - > Fabricating: Water, Fuel, Liquid Gas, Air, Pressure Vessels, Hydraulic Crude oil, Mud and storage tanks with various capacities using API Spec's
 - > Diesel Caterpillar, Detroit (G.M), Duetz, Cummins, EMD, Daihatsu, Ford, M.A.N, Komatsu, Engines: Perkins, John Deere, Sulzer, Waukesha
 - > Drawworks: Continental Emsco, IDECO, Gardner Denver, National, Mid-continent, Oilwell, OIME-7E, Skytop Brewster, Superior RC-1500
 - > Mud Skytop Brewster , Continental Emsco, Gardner Denver, IDECO T-1000, Oilwell, Baoji Pumps: F-1600
 - > Rotary: 17½", 27½", 37½" – BDW, Continental Emsco T-2750, George E. Failing, IDECO TL 400, National, Oilwell, OIME
 - > Compressors: Atlas Copco, Ingersoll-Rand, Sulair
 - > D/Brakes: PARMAC 481 Single, Baylor 6032, Disk
 - > Transmission: ALLISON Series 606, 602, 627
 - > Torque Converter: National C-300-100, Twin Disk Clutches PO-118, PO-330
 - > Supercharge Pump: Mission, Cobra and other brands
 - > Drilling Rigs: BDW 1350-M, Gardner Denver, George E. Failing, L.C.M, LCI-1100, National Oilwell, National 370, National 1230, 2000, 110 & 80 UE, OIME TBA-2000E, Parco, Skytop Brewster, Spencer Harris TZJ40/2250, Wilson Mogul

- ◆ Drill Pipes, Tubing, Spiral Stabilizers, Spiral Drill Collars, Kelly Cock, Kelly Valve, Safety Valve, Tread Protector, Ram Type Double BOP, Ram Type Single BOP, Chart Recorder, Swabbing unit, Water Well Drilling Rig, Air Compressor, Diesel Power Generators, Cranes, Shovel Loaders. Bulldozers, Excavators, Dumpers, construction accessories, AHTS Supply Boats.
- ◆ Supply (Original Equipment Manufacturer) OEM & locally spare parts for drilling rigs, diesel engines, diesel/gas generators, compressors, hydraulic pumps, safety/fire equipments & accessories, ferrous & non-ferrous materials, hardware tools and construction raw materials.
- ◆ Other API standards allow to us with certification, we are capable to provide our service in specialized jobs such: Hardbanding, Hardfacing, High Temperature and Hot Climate welding, X-ray, Gas Pipe, Fuel Pipe, and Songraphic method welding at workshop and site.
- ◆ Complete HSE Solution with highly expertise; experiences with multinational companies at overseas & local projects personnel's are available with the following activities.

(a) Oil & Gas Drilling Operations	(b) Rig move
(c) Seismic Operations	(d) Water Well Operations
(e) Industrial Operations Control	(f) HSE Management System
(g) Policy	(h) Operating Procedures
(i) Emergency Plan	(j) Crises Management
(k) Personnel's Training	(l) HSE Personnel
(m) Defensive Driving	(n) First Aid
(o) ISO Preparations	(p) HSE Auditing
(q) Industrial & Safety Training Services	(r) HSE Refresher Courses
- The above developed, review & Awareness Session Courses could be arranged on demand
- ◆ Consultancy & Services under **HSE** principles for construction of rig roads all type of terrain, cellar/pad, drilling pits, locations for oil & gas drilling sites, mechanical, electrical, shutdown projects with **HSE** trained personnel's.
- ◆ Storage facilities for drilling rig & other equipment available at our yard at 786 Pasadena TX South Houston
- ◆ Trading Services.
- ◆ Dedicate Quality Control at no extra charge.
- ◆ Competitive and attractive costs with quality work.

EXPERIENCE:

Zafco and their certified associates offer over **50-years** of combined experience, and have been involved in the drilling and/or completion of **22,680** Oil & Gas and Geo-thermal wells, Water Wells and pipe-line + road construction as follows:

OIL & GAS WELLS:

- a) Depths to 10,000 ~ 30,000 feet below mean sea level.
- b) Average as much as 10/20 MMCFPD or 500 to 4000 BPOD.

WATER WELLS

- a) Depths from 100 feet with 20 GPM for private use to 2,400 feet with 750 GPM for UN, (Overseas from USA), Municipalities and E&P organization.
- b) Set submersible pumps (1/2 HP to 150 HP turbine driven).

The drilling industry judges a company/contractor by his equipment operation, performance and then by the amount of down time the rig (a) experiences for repairs.

Zafco and their associates are proud the facts have over 22,680 wells to their **credit accident free**. In order to keep this record and to further develop their reputation in the industry, **Zafco** has surrounded them-selves with the most experienced personnel available. **Although both has a large capital investment in equipment**, **Zafco** feel that it's most important assets are its employees and certified associated. **Zafco** strives to have safe and well trained employees and company is reflect by the quality of work perform by their personnel, highly emphasizes should always be involved in teaching and developing interested individuals so will also advance technically, efficiently in sound, safe drilling and refurbish work habits.

Zafco has become a people-oriented organization along with the necessity of contain experienced personnel are technically qualified, a quality, **Zafco** has instilled in all of their employees & associates are willing to share this advanced technology in any country that chooses to select their company.

ZTI has employees & associates with recognized certification and specialized abilities, **ranging from oil & gas, geothermal drilling, workover operation, Integrated services for drilling projects, third party management / operation, offshore platform maintenance Pipeline for water or oil, Earthmovers, Rig Road construction, Erection & Fabrication for Oil Refinery API Tank builders**, electrical, mechanical, petroleum engineers available for clients. A detailed list of our technical staff along with their qualification and experience will be submitted prior to departure.

ZTI can provide the complete infrastructure of the oil & gas/geothermal drilling, Integrated Services, pipeline Projects. Our services include, **BUT NOT LIMITED TO**, moving equipment to sites, build rig roads, site preparation, set-up, drilling, completion, erect water/oil storage tanks or dig stock tanks, Install utilities and lay oil/gas/water lines to direct mains, welding and fabricating. In addition to providing equipment, we can provide pipe, pumps, generators and **BACK-UP** drilling rig parts to insure a continual flow of work.

All above equipment, machinery, engineers, technicians, skilled, semi workers are available on ZTI projects as where required.

To summarize, endeavors on behalf of **Zafco Trading Inc**; to make your search for experienced personnel and top of the line equipment as effortless as possible. If the client will arrange for import of our equipment, duties and taxes, transportation to base camp with living facilities.

**WE GUARANTEE WE CAN DO THE REST
OUR GOAL IS TO HELP YOU REACH YOURS**

Respectfully submitted,
Zafco Trading Inc;

receive power from either the MCC or an external generator to charge the batteries. The battery systems are fully wired and mounted in racks and are installed in the control house along with the wall-mounted chargers.

Gas Turbine Air Filter Assembly:

The air filter is approximately 27' (8.2 m) long and 10'.11" (3.33 m) wide and weighs approximately 20,000 pounds (9072 Kg) fully loaded. The air filter is equipped with a two - stage filtration system for both ventilation and combustion air with panel type re-filters housed in hinged doors and high efficiency barriers filters. The air filter includes weather hoods installed in front of the filtration system and inlet silencers. An inlet plenum with hatch is provided for access to the FOD screen for maintenance. Ventilation fans for the turbine enclosure are installed in the air filter assembly. Two 50% fans and bypass damper are installed. All the items listed are housed in the filter house that is complete with an access door for maintenance, separate air paths and turning vanes and the necessary instrumentation. For connection to the Main Trailer, the air filter is hard mounted directly on top of the combustion and ventilation inlet plenum.

Warranty:

Equipment is in storage and preservation under GE agreement and supervision. Equipment comes with full warranty in place from the OEM warranty. Additional years can be added at a cost of US\$270K each unit.

Availability:

- Availability: All equipment is available **16-Weeks** from PO and Deposit Approval.
- Spares, gas compressors, water systems, switchgear, GSU are available for additional Cost.

As an Iraqi-owned company, we understand the ever-evolving security landscape and this gives us, and our customers, a unique and valuable perspective to security and business continuity. Our company leaders' knowledge of local dynamics and our strong relationships within the area has led to a better understanding and, has aided us in meeting the needs of our customers, enabling MES to provide consistent, professional security support to our clients. The company's headquarters is located in Basra, Iraq where our senior management team is based. This enables us to provide virtually immediate support and allows us to ensure our clients challenges are dealt with swiftly and correctly.

Exxon Mobil Rig Profiles and Mobile Security Services

MES have been providing security services in support of various Halliburton contracts within the West Qurna 1 (WQ1) Oil Field concession since MES was first contracted to Halliburton in 2012. Most recently, MES was awarded a contract to support Halliburton rig profiles, contracted to Exxon Mobil within WQ1. MES have provided total security, both manpower and physical security profile equipment in support of Halliburton on two rig profiles, as well as mobile security services to Exxon Mobil Iraq security standards.

Approved HABC Centre

MES has been approved as an accredited Highfield Training Centre (under company group, Saraji Group), training centre registration Number 14125. All MES training plans, lessons, operating procedures and training management team have been extensively audited to ensure compliancy with the international standards required by Highfield.

MES has been a Rumalia Operating Organization approved security services provider since 2013. The provision of security services in support of our ROO contracted client base meets the latest version of ROO standards.

شركة غاز البصرة
Basrah Gas Company

MES currently provides Basra Gas Company (BGC) compliant security services within the southern Iraq Oil Field concessions. We have been audited and approved to support our clients to BGC standards in Iraq.

MES currently provides Lukoil compliant security services within the West Qurna 2 Oil field concession. We have been audited and approved by Lukoil and are an approved security services provider.
